About Vayu Products Private Limited

Vayu Products Private Limited is a leader in India's industrial gases sector, dedicated to providing high-quality cryogenic liquids and industrial gases. Established with a vision to fuel industrial progress, we have become a trusted name across diverse industries for our commitment to innovation, reliability, and customer-centric solutions.

VAYU
COMMITTED TO LIFE

Our Strengths

- **Manufacturing Expertise:** Decades of experience in producing Liquid Medical Oxygen, Liquid Oxygen, Liquid Medical Oxygen, and Liquid Argon.
- **Comprehensive Infrastructure:** Cutting-edge production facilities with advanced cryogenic technology.
- **End-to-End Supply Chain:** Integrated logistics for seamless product availability nationwide.
- **Commitment to Safety:** Industry-leading safety standards in production, storage, and distribution.

Industry Focus

We cater to a wide range of industries, including:

- **Healthcare:** Supplying medical-grade oxygen for hospitals and healthcare providers.
- **Metal Fabrication:** Providing gases for cutting, welding, and other metal processes.
- **Food & Beverage:** Solutions for food preservation and processing.
- **Electronics & Solar:** Supporting advanced manufacturing with ultra-high-purity gases.
- **Research & Development:** Meeting the needs of academic and industrial labs.

Value Proposition

- **Reliability:** Guaranteed delivery through an integrated supply chain.
- **Customization:** Tailored solutions to meet specific industry requirements.
- **Sustainability:** Environmentally conscious practices in production and distribution.
- **Technical Expertise:** On-call consultation and support for clients.
- **Quality Assurance:** Stringent quality protocols for consistent product performance.

Why Choose Vayu Products

- **Proven Legacy:** Backed by decades of trust and performance in the industry.
- **National Reach:** Strategically located facilities ensuring rapid delivery.
- **Innovation-Driven:** Continuous investment in technology and process improvement.
- **Customer Focus:** A strong commitment to understanding and exceeding client expectations.

As we expand our capabilities and portfolio, including through our subsidiary Vayu Speciality Gases Private Limited, Vayu Products remains your partner in growth, delivering quality, reliability, and excellence across India's industrial landscape.

About Vayu Specialty Gases Pvt. Ltd.

About Vayu Specialty Gases Private Limited

Vayu Specialty Gases Private Limited, a wholly owned subsidiary of Vayu Products Private Limited, stands at the forefront of India's specialty gases industry. Our emergence comes at a pivotal time in India's industrial evolution, particularly in supporting advanced manufacturing sectors like solar photovoltaics and semiconductors.

VAYU
SPECIALITY GASES
COMMITTED TO LIFE

Our Strengths

- Manufacturing Excellence: Leveraging years of experience in high-purity gas production
- Comprehensive Portfolio: Extensive range of specialty gases including electronic grade gases for PV manufacturing
- Advanced Infrastructure: State-of-the-art storage, handling, and distribution facilities
- Supply Security: Fully integrated supply chain

Industry Focus

We specialize in serving advanced manufacturing sectors with expertise in:

- Solar Photovoltaic Production
- Semiconductor Manufacturing
- Electronics Industry
- Research & Development
- Healthcare Applications

Value Proposition

- Guaranteed supply reliability through diverse supply chain
- Technical consultation and support
- Customized delivery solutions
- Rapid response capabilities
- Comprehensive safety protocols
- Complete quality documentation

Why Choose Vayu Specialty Gases

- Proven Track Record: Built on Vayu Products' established reputation
- Local Presence: Strategically located facilities across India and closest to your facility
- Supply Security: Robust infrastructure and delivery network
- Quality Focus: Advanced quality management systems

Turnkey Cryogenic

Facility Design & Installation

Vayu Products provides end-to-end solutions for designing, engineering, and executing cryogenic storage and gas delivery systems. Our turnkey service ensures that all aspects of the facility — from initial concept to regulatory approvals and installation — are expertly handled, tailored to meet the specific needs of our clients.

Our system delivers efficient and safe gas supply through the following components:

Cryogenic Storage Vessel

The storage vessel is custom-sized according to the client's operational and capacity requirements, ensuring optimal storage of cryogenic liquids.

Features Includes:

1. **Tank Pressure Gauge:** To monitor pressure for safe operations.
2. **Pressure Relief System:** Prevents excess pressure buildup. **Fill Valves:** For refilling cryogenic liquid.
3. **Contents Gauge/Tracker:** Provides real-time monitoring of liquid levels.

Atmospheric Vaporizers

The vaporizers convert the stored cryogenic liquid into gas by heating it to near ambient temperature. Sized for peak demand, they ensure efficient, uninterrupted gas delivery.

Pipeline Pressure Regulation & Low-Temperature Protection

After vaporization, the gas is delivered through regulated pipelines, ensuring consistent pressure and temperature. The system is designed with safety features to avoid over-pressure or low-temperature hazards, ensuring a reliable gas supply to the customer’s pipeline.

Our Turnkey Solutions Include:

End-to-End Design and Engineering:

We develop a fully customized design based on client specifications, ensuring all parameters such as capacity, size, and operational requirements are met.

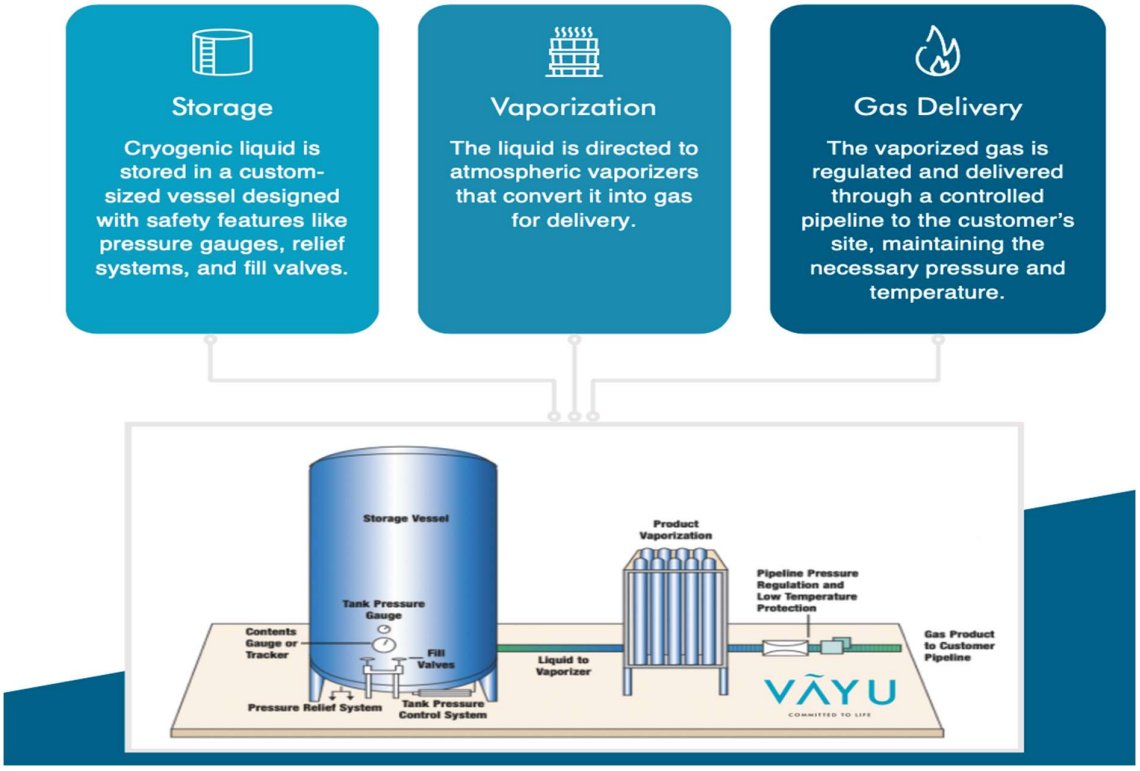

Execution:

We manage the entire installation and commissioning process, ensuring the facility is built to the highest standards.

Regulatory Approvals:

We handle all regulatory compliance and approvals to ensure the facility meets national and international safety and operational standards, giving you a hassle-free experience.

How the System Works:

Scope Split:

Vayu Products Private Limited:

Sr. No.	Description	Schedule of Work
1	Submission of Complete Design & Scope	Within **15 days** from the date of order.
2	Assisting in the process of CCOE license.	Within **30 days** from the date of order.
3	Supply & Installation of the Liquid Medical Oxygen & Liquid Medical Oxygen vacuum-insulated tank (1x 20 KL capacity), complete with: - Pressure buildup vaporizer to store Liquid Medical Oxygen and continuously feed cryogenic liquefied gas. - All necessary valves, pipelines, and accessories.	Within **45 days** from the date of order.

JECRC Medical College & Hospital (JMCH).:

Sr. No.	Description	Schedule of Work
1	Civil work comprising of designing and laying of the foundation.	Within **30 days** from the date of order.

Description	Vayu Products Pvt. Ltd.	JECRC Medical College & Hospital (JMCH).
Submission of Complete Design & Scope	✓	
Assisting in the process of CCOE license.	✓	
Supply & Installation of Liquid Medical Oxygen vacuum-insulated tanks (1x20 KL) complete with:	✓	
- Pressure buildup vaporizer to store Liquid Medical Oxygen and continuously feed cryogenic liquefied gas.	✓	
- All necessary valves, pipelines, and accessories.	✓	
Civil work comprising designing and laying the foundation.		✓

Commercial Proposal

Gas Price:

1. Liquid Medical Oxygen
   Price: INR 13.50/KG

Facility Rental:

1. Liquid Medical Oxygen 20KL Facility Rental with accessories
   Rental/Month: INR 26,000/Month

One Time Installation Charges:

1. Installation of Liquid Medical Oxygen Tank and other accessories INR 1,50,000/-

GENERAL TERMS AND CONDITIONS

Technical and Commercial Terms and Conditions

This document presents the technical and commercial terms of the offer from **Vayu Products Private Limited** ("Vayu Products") to **JECRC Medical College & Hospital (JMCH).** ("Customer") for the supply of Liquid Medical Oxygen (LMO).

---

1. Validity of the Offer

- The offer is valid for **30 (Thirty) Days**.
- Renewal of terms is possible through mutual agreement between Vayu Products and the Customer after the initial term.

---

2. Exclusive Refilling Rights

- **Exclusive rights:** Vayu Products holds the sole right to refill LMO into storage tanks installed at the Customer's premises.
- **Non-engagement of third parties:** The Customer agrees not to use third-party suppliers for refilling the specified tanks.

---

3. Ownership of Equipment

- Vayu Products retains ownership of the **Storage Tank** and **Vaporizer** installed at the Customer's premises.
- Ownership remains with Vayu Products for the entire duration of the arrangement.

---

4. Responsibility for Physical Damage

- The Customer is liable for any physical damage to the Storage Tank or Vaporizer installed at the premises.
- Costs for repair or replacement resulting from such damage will be borne by the Customer.

5. Maintenance Responsibility

- Vayu Products is responsible for maintaining the Storage Tank and Vaporizer and the whole facility.
- Maintenance includes routine inspections, servicing, and necessary repairs to ensure safe and efficient operation.

6. Measurement and Conversion of Liquids

- **Weighment-based delivery:** Quantities of LMO delivered are measured before and after decantation.
- **Calculation formula:**
  - $W_3 = W_1 - W_2$
    - W_1**:** Gross Weight (filled tank weight)
    - W_2**:** Tare Weight (empty tank weight)
    - W_3**:** Net Weight (delivered quantity)

7. Taxes and Levies

- Any changes in government levies, duties, or taxes applicable to LMO will be borne by the Customer, based on actuals at the time of delivery.

8. Upgrade of Storage Capacity

- If the Customer's demand increases, Vayu Products will install a larger Storage Tank to meet the requirement.
- The existing tank will be removed by Vayu Products as part of the upgrade, subject to mutual agreement on terms.

9. Force Majeure

- Vayu Products is not liable for delays or non-performance caused by factors beyond its control, such as natural disasters, government actions, labour disputes, or supply chain disruptions.

10. Pricing and Payment Terms

- Pricing for LMO will be as agreed in the final contract.

- Payments must be made within the agreed credit period. Late payments may attract interest charges per industry norms.

---

11. Confidentiality

- Both parties agree to maintain confidentiality and not disclose the terms of this offer to third parties without prior written consent.

---

12. Other Terms

- This document is a technical and commercial offer and does not constitute a legally binding agreement.
- A formal agreement incorporating these terms and any additional mutually agreed provisions will be executed to finalize the arrangement.
